11 responses

Have you ever used or visited any of the following online pet care platforms? (Select all that apply)

11 responses

What kind of pet care feature do you find most useful from these platforms?

11 responses

Do you think a single integrated system like Care4purrt (combining medical, emotional, and travel features) is more convenient than using separate platforms?

11 responses

How much do you think Care4purrt could improve your overall pet management or clinical experience compared to current methods?

11 responses

## Section B: Open-Ended Questions (for All Users)

### 1. Which feature of Care4purrt do you find most valuable or promising, and why? 11 responses

PetTailor

Passport generation feature is really important.

It seems every feature is equally valuable. It's hard to tell specifically.

It tracks moods and behaviors.

Easy to understand pet's mental health.

Pet Passport, because this system will help me to make my pet's passport. So, I won't have the hassle to apply for a pet passport.

I think it is CareTailor. Whenever I want, I can track and know about my cat's physical conditions. Also it tells me about my baby's nutrition needs.

Generation passport is different and useful that I can't find in other sites. It's helpful traveling with pets 

The mood tracking option is helpful because most of the pet owners cant understand what their pets moods are.

Moodtrack - because I can know about my pet's mood and mental health.

Care Tailor. Because it's different from others.

Mood logging is great! its unique

### 2. What improvements or extra features would you suggest for better user experience? 11 responses

N/A

PetPassport

Smooth and seamless interaction is needed for ber experience.

If pet adoption option was there then many innocent soul would find a safe home. I know it is a health care system but still it can be added.

Exercise plan and nutrition information should be valid.

You can add a section where pet medical records will be stored .

I guess everything is fine so far.

Keep the buttons and interface simple .

A reminder system for vet visits and meds would be super helpful

### **3. How do you feel about the system's user interface (UI) and dashboard layout from what you've seen?**

11 responses

Excellent

Appealing.

Great!

I feel it is fine.

The UI & dashboard looks easy and comfortable for an user.

Easy to use

Simple and Easy to use .

I think it could be user friendly.

It's impressive

Fair enough.

It's clean and easy to use, even for firsttime user

### **4. What potential challenges or limitations do you think users might face when using Care4purrt? 11 responses**

N/A

PetPassport

If the records can not be saved properly, users may suffer.

Difficulty may arise but can not think of any.

Maybe taking appointments if they don't manage the vet's appointment schedule properly.

Don't know.

I cant find any.

I guess nothing.

I think if the design is complex, new users may suffer .

data slow if internet is weak

## **5.How do you feel about integrating Care4purrt with wearable or smart tracking devices for pets in the future?**11 responses

Execellent

I don't understand this feature.

Safe and reliable.

Obviously that will be great .

That would be really a nice idea!

N/A

Innovative.

Very appealing.

No need

Have little knowledge about it.

sounds amazing

## **Section C: Final Feedback**

**Would you like to share any additional comments, expectations, or suggestions to help us improve Care4purrt before its official development?**

11 responses

Manage Petpassport

I hope this will be one of the most helpful online health care systems in Bangladesh.

I am eagerly waiting to see it working.

I am excited to see the final output .

N/A

I would expect them to offer the service for free.

Good luck guys!!

The features are good enough. Make sure The UI is easy to use.

Good luck!

I hope it will be a great project .

Just make it easy to use and nice to look at. Adding some pet care tips or reminders would be really helpful too.
